

*“When a woman speaks her truth, fires up her intention and feeling, stays tight with the instinctive nature, she is singing, she is living in the wild breath-stream of the soul.” – Clarissa Pinkola Estes*

Women’s Truth matters; it has impact and purpose. We will not be silenced, shamed or overlooked.

On January 19<sup>th</sup>, 2019, we march in Fresno, along with millions of women and our allies from across the world. We march Truth to Power; we speak Truth to Power. We continue our fight for women’s rights, human rights, civil liberties, inclusivity and compassion for our shared humanity.
